

5/5 Stars

What is your favorite feature of Emburse Cards?

“ We work with 500 to 800 small attorney offices and that number is growing weekly. Most of these offices had only one option to call and give them the card number over the phone. Besides having our card information in hundreds of hands, we spent 5 to 15 minutes 10 to 15 times a day on the phone calling in the cards. Now it is a 30 second email and they are paid!

Why did you select that feature?

“ It directly affected my teams time as we were at a point of hiring more people. This saved us 6 months or more before having to add a person to the payroll!
