

What is the greatest impact GreenPath has had on your organization?

GreenPath stands in the gap for members who we are not able to help or support. As the person who oversees financial resilience tools for our credit union, GreenPath is one of the best vendors we've onboarded.

I also love that GreenPath gives us a tangible example of our commitment to Diversity, Equity, Inclusion, Access and Belonging. Having a tool that is available in hundreds of languages is vitally important for us.
