

Switching from a PEO to Gusto

5/5 Stars

Would you recommend Gusto?

I would recommend Gusto to anyone looking for a simple way to manage the complexities of payroll. We used to be managed by a PEO (and pay far more than we now do with Gusto), which took up an enormous amount of my time, effort, and energy to do the things I don't even have to think about now with Gusto. Almost everything is done for me and any input I need to make or our employees need to make is presented in a fun and easy platform that takes minutes to complete. I absolutely love Gusto.
