

4.5/5 Stars

Gusto benefits is simple, easy, and very user friendly. I switched to ADP at the beginning of the year for about 2 weeks and came back to Gusto because it was a NIGHTMARE having to deal with physical old school style paperwork when setting up benefits and everything else. Gusto makes it easy and quick to choose the plans and easy for the employee. This is a HUGE reason why I offer benefits through Gusto. Also, it's been easy to look at my benefits online and have quick access without having to go to the health care website.
