

5/5 Stars

My favorite thing about being a Gusto partner is that I can call anytime I have questions, & Gusto's customer service is always quick to help. I can smoothly run payroll for my remote clients, and Gusto makes it possible for me to offer payroll & human resources services to my clients without me having to know everything about everything. Utilizing integrations with Deputy and T-Sheets makes payroll especially easy since the client approves the time sheets, and the integrations eliminate any possible mistakes from manual data entry.
