

How does your organization use Gusto?

4.5/5 Stars

How our organization uses Gusto:

Gusto reports are easy to use, the integration even down to the department makes posting payroll so much easier, onboarding is super easy (even mid-year!), customer support is very helpful in the rare case of any issues, benefits across the US are a fantastic option (especially for so many remote employees!)

I'll be honest – the only reason I can't give it a five star rating is the limitation of vacation tracking and the handling of S-Corp owner HSA contributions which are exempt from FICA and medicare taxes (it is my understanding that Gusto can't handle this).

Would you recommend Gusto?

Yes
