

5/5 Stars

Offering benefits to our employees was something that we needed to handle. Without benefits, we were seeing a bigger staff turnover and were having difficulty in hiring strong candidates for new positions. As a small business, navigating the benefits process is a minefield and long winded, where we could have easily made wrong and costly decisions. Gusto gave us a complete solution for this allowing us access to great benefits packages at rates that we could afford without having to bounce through multiple different brokers.

We are a small company, stretched thin and time poor. Not having to worry about managing payroll and the benefits packages offered to our team is a huge weight that we do not have to carry due to how simple Gusto makes this.
