

5/5 Stars

With our employee information already in Gusto for payroll, the integration allowing that information to sync over to benefits administration is seamless for both employees and management. Gusto has allowed our business to standardize a complex process while requiring minimal resources and providing a user experience as or more intuitive as any software platform we use throughout our organization. Gusto has allowed us to offer the payroll and benefit advantages of a much larger organization without the requirement to carry as large of a management overhead as larger organizations. Our ability to continue to offer these services while also managing them well is part of the reason we've been able to grow as desired.
