

## GUSTO CUSTOMER REVIEW

Having benefits with Gusto has made my life so much easier. My employees can find all the info they need, so I don't have to look it up for them. With a new employee I can just print out the averages and plans available without a lot of digging. For me personally, everything is laid out in my check so I know what I'm paying. When it is time to pick out a plan I can clearly see what is offered, how much it will cost for my family, and pick the best plan for us.
