

GUSTO CUSTOMER REVIEW

Working in the cannabis industry means we're at a disadvantage, if not outright excluded, from obtaining normal benefits solution such as health insurance. Gusto gives me the ability to provide my team with health insurance solutions at competitive rates. That's a huge relief in times like these. Gusto streamlines a typically laborious process, and makes it easy to source benefits solutions tailored to my company's needs. The platform also simplifies the roll out and enrollment process for my staff.
