Through Gusto, I am able to offer a service to my clients that is easy to use, offers all the same features as previous payroll providers, at a lower, easier-to-predict price, with other features that make life easier. Forget to pay someone? Run a special one-time payroll – no charge. Want a bonus payroll? Easy – type it in, and you’ll get it. No charge. Want to change from bi-weekly to weekly? Sure thing. The automation of the program makes me feel in control.
