

5/5 Stars

As the admin & payroll manager, I have been working remotely from my team since I set up Gusto. They work together and self-manage and I can take care of everything on my end without much delay. I LOVE that staff has access to using resources, like the new Gusto savings account, without me needing to be involved. This makes us much more self-sufficient which really fits our company culture. Gusto is easy for me to use and easy for my staff to use. All I have to do is tell them: “Look for an email from Gusto.”
