

Gusto is completely web-based – even the new hire on-boarding process that used to be so paper and labor intensive has become a breeze! There’s an ability to manage and deploy compliance documentation to staff, recruiting can be pushed out to job boards from within Gusto, benefits integration is seamless, communication with the Support team is straight-forward and effective, and third-party platform integrations are easy to set up. Our clients’ staff also report a very favorable user experience with the platform. Overall, Gusto has made the HR and payroll experience fast, efficient and painless for all concerned.
