

5/5 Stars

As CEO of a small but growing company, having a platform that combines payroll and benefits is super helpful. Both can be painful to manage. But using an amazing platform like Gusto makes it simple! I love being able to review multiple plans and then allowing my employees to pick the plan that fits them best. We LOVE being able to have our employees make their healthcare selection inside Gusto. It makes it so easy for the employee to manage their healthcare options! The Gusto agents are also really helpful in answering any questions I have. I LOVE Gusto!
