

Afiniti & VMware

Introduction

This case study of Afiniti USA is based on an August 2019 survey of Aventis Systems customers by TechValidate, a 3rd-party research service.

“We try to implement virtualization where ever possible as it is inevitable for our business.”

“We purchased VMware from Aventis Systems because they have the best price and after-sales services”

“We always use virtualization via VMWare for all of our servers to make multiple VMs”

Use Case

Afiniti used Aventis Systems as their VMware provider and are enjoying these key features and functionalities:

- Types of virtualization their business uses VMware for:
 - Server Virtualization on 10-20 host servers
 - High Availability
- All-time favorite features of VMware:
 - Support for VMware vSphere and Microsoft Hyper-V
 - Application-Aware, Image-Based Backups
 - Monitoring of Virtualized Environments
 - Reporting on virtualized environments

Results

The surveyed company achieved the following results with Aventis Systems:

- Key benefits of utilizing VMware:
 - Lowered administrative overhead
 - Reduced backup software costs
 - Reduced performance impact on production systems
