

Rinesmithb, a user of Identifix Direct-Hit, would be likely to recommend for this reason:

I run the shop and am the only mechanic for a local municipality. With a limited budget I can only run one subscription for manuals and diagrams. The added benefit of the known fixes is what sold me on Direct-Hit. With a price point very similar to the competition it was a no brainer. Furthermore, I love the option of a discounted price for a limited number of vehicles per month. Many of our small fleet are very similar if not identical vehicles so it works great for us. I would definitely recommend Direct-Hit to any of my colleagues in the municipal fleet world and in retail shops.
