

“Like any new project that you take on, there are always moments of frustration and the question of ‘why did I?’ But in the end, I know that we made the right choice. Innovative has been there every step of the way for us. During setup and implementation of each of Innovative’s products, no question went unanswered or was considered frivolous by Customer Services Help Desk. Innovative truly meets the needs of today’s over-burdened public library staff when it comes to giving the answers for statistics. ....And now with the use of more hand held devices and apps, what more can a public librarian ask for!”
