

4.5/5 Stars

How our organization uses Sierra:

“ We’re a small academic law library and we use the basic library modules: OPAC, serials, cataloging, acquisitions, and circulation. We also keep our library homepage within the Ill service.

Please describe your experience with Innovative products and services.

“ Innovative products are always outstanding and outperform all competitors products. I’ve been working in libraries for over 30 years with only Innovative products.
