

Verifone

Introduction

This case study of Verifone is based on an October 2019 survey of Kenna Security customers by TechValidate, a 3rd-party research service.

“It is very helpful to generate risk reports in a less time and we can remediate risks within a short period.”

Challenges

The business challenges that led the profiled company to evaluate and ultimately select Kenna Security:

- Vulnerability management challenges they experienced that led them to implement the Kenna Security Platform:
 - Too many vulnerabilities with no way to effectively prioritize

Use Case

The key features and functionalities of Kenna Security that the surveyed company uses:

- Approaches used to prioritize vulnerabilities prior to Kenna:
 - Use rating system from scanner
- How they evaluate the success of their Kenna Security platform implementation:
 - Reduction in Mean Time To Remediate (MTTR)
 - SLA Adherence
- Kenna’s primary advantage(s) over other vulnerability management platforms:
 - Kenna goes beyond basic risk scoring and tells them what they need to fix first
 - Kenna provides meaningful and actionable data for remediation (remediation intelligence)
 - Kenna provides awareness of how much risk is in their environment

Results

The surveyed company achieved the following results with Kenna Security:

- Reduction of time spent on the following activities, since using Kenna:
 - Time spent on Vulnerability Investigation: over 75%
 - Time spent on remediation: over 75%
 - Time spent on reporting: over 75%

Company Profile

Company:
Verifone

Company Size:
Large Enterprise

Industry:
Computer Hardware

About Kenna.VM

Cisco Vulnerability Management (formerly Kenna.VM) offers an effective, efficient way to reduce your risk profile using risk-based prioritization powered by data science. Rely on it to ID the vulnerabilities that put you at the greatest risk, create a self-service environment for remediation teams, set intelligent SLAs based on your risk tolerance, compare your risk posture against industry peers, deliver clear reports with intuitive metrics, and more.
