

A smooth and positive experience

4.5/5 Stars

Benefits experienced with LabWare:

Company wide time savings. The areas that have been addressed by LIMS no longer have paper to maintain and the data is easily traceable. The laboratory has had an incredible amount of turnaround and loss and without LIMS the company would not have been able to continue to deliver on time results. There has also been a great amount of end user ‘buy-in’ for the system. We have Laboratory analysts and Manufacturing personnel using the system daily and it has been a smooth and positive experience.
