

LabWare Customer Satisfaction

A System Administrator of a large enterprise pharmaceuticals company is very likely to recommend LabWare for the following reason:

I used Labware LIMS (as an end user) for approximately 5 years in a pharmaceutical lab and it was incredible what the system could do. We were completely paperless and it saved so much time and effort (and errors). I've been building and administering a system at a new company for the past 3 years, and it has been such a wonderful learning experience. Getting to see the system from both sides has been a fun and terrific experience.
