

Accurint for Legal Professionals Customer Testimonial

“ While using Accurint for Legal Professionals, I was able to track down an address and phone number for a successor trustee of a trust who had moved out of state. I was thus able to serve her with a Complaint and, although she would not respond, I was able to use the information to get the attorney for the trust to provide evidence needed and was also able to get the court to enter the successor trustee’s default.
