Millipore Sigma Secures Over $1M in Annual Savings with Loftware Spectrum

Introduction

This case study of Millipore Sigma is based on an April 2017 survey of Loftware customers by TechValidate, a 3rd-party research service.

> " "We are able to provide a quick labeling solution with maximum flexibility to design labels as per business requirement. Our response time to the customer is quick and accurate due to the advanced features in Loftware Spectrum."

Challenges

Millipore Sigma purchased Loftware Spectrum to help overcome time-consuming manual processes and the limitations of labeling within existing enterprise applications they were using. They also were looking for a solution that could support the company's growth and offer the labeling consistency and accuracy they required.

Use Case

Using Loftware Spectrum for their Enterprise Labeling, Millipore Sigma was able to streamline all of their operations including warehouse management, shipping and distribution, while improving traceability across their global supply chain. They also were able to simplify their label design and empower business users to update labels.

Results

Implementation of Loftware Spectrum has helped Millipore Sigma to reduce downtime by nearly 100% and reduce occurrences of mislabeling by more than 80% to help secure over a million in annual savings.

Using Loftware Spectrum, Millipore Sigma was able to scale their labeling to meet their business growth, easing deployment and scaling to new locations. The company was also able to stay compliant with regulations and industry standards allowing them to reduce the risk of costly fines, avoid supply chain disruptions or stoppages and expand into new markets.

Additionally, with Spectrum's enterprise integration Millipore Sigma was able to eliminate manual labeling efforts, make label changes quickly, and avoid mislabeling errors by removing the risks of maintaining label data outside of my enterprise applications. This increased visibility over the entire labeling process, while improving label accuracy and reducing costly errors.

With Loftware, Millipore Sigma was better equipped to address customer requirements. This included improving the handling of requirements such as content, barcodes, images/branding, formatting and language. Spectrum enabled the company to offer better responsiveness to customer labeling requests and changes, improving customer relationships.

Company Profile

Company:
Millipore Sigma

Company Size:
Large Enterprise

Industry:
Chemicals

About Loftware

Loftware is the global market leader in Enterprise Labeling and Artwork Management solutions with more than 5,000 customers in over 100 countries. Offering the industry's most comprehensive digital platform, with SaaS, cloud-based and on-premise solutions, Loftware redefines how enterprises create, manage and print complex labeling and packaging artwork and scale across their operations. Loftware enables customers to uniquely meet regulatory mandates, mitigate risk, reduce complexity, ensure traceability, improve time to market and optimize costs as they meet customer-specific, brand, regional and regulatory requirements with unprecedented speed and agility.
