

Small Business Industrial Manufacturing Company

Introduction

This case study of a small business industrial manufacturing company is based on a June 2017 survey of Hexagon Manufacturing Intelligence customers by TechValidate, a 3rd-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

“PC-DMIS has given me more confidence in my manufacturing process.”

“For the last couple of years, all who are associated have seen a substantial drop in scrap losses with the utilization of PC-DMIS and competent programming.”

Challenges

The business challenges that led the profiled company to evaluate and ultimately select Hexagon Manufacturing Intelligence was due to the software’s high level of capability.

One challenge that the profiled company faced was difficulty in having a thorough parts inspection process.

Use Case

While the company choose PC-DMIS first, they also looked at Zeiss, Mitutoyo, and Nikon.

Results

The surveyed company achieved the following results with Hexagon Manufacturing Intelligence:

- Found it easy to learn PC-DMIS compared to similar products.
- Finds that the expert support services has enabled them to reduce the amount of time dedicated to the creation of measurement routines.
- Has increased the productivity of their inspection planning by >40%.
- Had an estimated payback (ROI) of 1 year for their measurement solution utilizing PC-DMIS.

Company Profile

The company featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.
