

Powers And Sons Llc

Introduction

This case study of POWERS AND SONS LLC is based on a November 2017 survey of Hexagon Manufacturing Intelligence customers by TechValidate, a 3rd-party research service.

“familiarity with the product, not as limited as some of the other software ”

“The CMM purchased from Hexagon Manufacturing Intelligence has given me more insight and confidence in my manufacturing process.”

Challenges

The business challenges that led Powers and Sons LLC to evaluate and ultimately select Hexagon Manufacturing Intelligence were to ensure that dimensional stability requirements and quality specifications were met.

“The company used to do all line setups on a surface plate. This was time consuming and left the door open for operator error. ”

Use Case

The key benefits of the CMM that led Powers and Sons LLC to choose Hexagon was the ability to reduce inspection time, while making inspection more repeatable.

Results

By partnering with Hexagon the surveyed company achieved the following results:

The flexibility of the measuring system coupled with the advanced training and expert support services provided by Hexagon, Powers and Sons LLC were able to reduce the amount of time dedicated to inspection tasks.

- Increased productivity 30% after implementing Hexagon CMM.
