

Business Computer Software Company

Introduction

This case study of a small business computer software company is based on a September 2020 survey of Progress MOVEit customers by TechValidate, a 3rd-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

“MOVEit has taken what were cumbersome, patchy file transfer and scripting solutions and replace them with something centralised and audit-able. The mystery of how certain file processes work, no longer exists.”

Challenges

The business challenges that led the profiled company to evaluate and ultimately select Progress MOVEit:

- Implemented MOVEit to help solve a file sharing challenge with automated scripting.

Use Case

The key features and functionalities of Progress MOVEit that the surveyed company uses:

- Features of MOVEit they value the most when compared against competitive solutions:
 - Centralized management across a distributed environment
 - Breadth of capabilities and support
 - Integration with organizational tools currently being used
- Procures enterprise software like MOVEit through a local reseller.

Results

The surveyed company achieved the following results with Progress MOVEit:

- Top benefits they expect to achieve from their MOVEit Implementation:
 - Ensure better control over core business processes
 - Transfer files more conveniently
