

The power of NETSCOUT smart data helps  
Computer Hardware & Services companies plan  
migrations and manage risk in hybrid cloud  
environments

Indicate if you agree with the following statement pertaining to  
Adaptive Service Intelligence (ASI) technology from NETSCOUT:

☐ Strongly agree    ☐ Agree    ☐ Don't agree

Analyzing traffic data at the source is the most  
effective method of assuring service delivery  
across any hybrid cloud

Source: TechValidate survey of 2 users of NETSCOUT nGeniusONE Platform. Sample comprised of Computer Hardware organizations who said that the power of NETSCOUT smart data helps their organization build applications or services and manage risk in hybrid cloud environments.
