

Holzer Medical Center – Gallipolis

Introduction

This case study of Holzer is based on a January 2019 survey of Nozin customers by TechValidate, a 3rd-party research service.

“Nozin is a pleasant alternative to contact isolation for both patients and staff!”

Challenges

Holzer Medical Center – Gallipolis evaluated and ultimately selected a Nozin infection prevention program to address concerns with the following:

- Infection prevention
- Staff and patient satisfaction

Use Case

Nozin® Nasal Sanitizer® antiseptic is applied to the following populations:

- ICU patients
- MRSA colonized patients
- Pre-op patients
- Post-op patients

Results

Since implementing the Nozin infection prevention program, Holzer Medical Center – Gallipolis has achieved the following results

- Responsible reduction of MRSA Contact Precautions
- Less time donning and doffing PPE
- Increased patient satisfaction
- Increased staff satisfaction
- Reduced infections
