

NOZIN CUSTOMER EXPERIENCE

Anderson Regional Medical Center

Introduction

This case study of Anderson Regional Medical Center is based on a January 2019 survey of Nozin customers by TechValidate, a 3rd-party research service.

"I have had many patients realize more that they can be a source of their own infection and have begun to take ownership of care more postoperatively. They are even requesting to buy Nozin for home use!"

"Improved satisfaction scores have resulted in this pay for performance world that we have entered!"

Challenges

Anderson Regional Medical Center evaluated and ultimately selected a Nozin infection prevention program to address concerns with the following:

- Infection prevention
- Effectiveness of MRSA surveillance
- Better antibiotic stewardship
- Operational efficiencies (i.e., patient flow or throughput)
- Costs

Use Case

Nozin® Nasal Sanitizer® antiseptic is applied to the following populations:

- ICU patients
- MRSA colonized patients

Company Profile

Company: Anderson Regional Medical Center

Company Size: **Medium Enterprise**

Industry: Healthcare

Number of Beds: 260

State: Mississippi

- High risk area patients (history, dialysis, etc)
