

# Medium Enterprise Insurance Company

## Introduction

This case study of a medium enterprise insurance company is based on a June 2022 survey of OneNeck customers by TechValidate, a 3rd-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

“One of the ways we’re getting value from OneNeck is through our ability to go to OneNeck with questions related to M365, the tenant, on-premise EMC, and the centralized billing for our M365 subscription.”

## Challenges

The business challenges that led the profiled company to evaluate and ultimately select OneNeck:

- When considering OneNeck as their Microsoft CSP:
  - Helping you discover which M365 plan was right for your business: moderately Important
  - M365 consulting and roadmap development: important
  - M365 migrations: very Important
  - M365 tenant set-up and management: very Important
  - User provisioning and administration (moves/add/changes): moderately Important
  - Escalation management and reporting: very Important
  - 24x7 expert-to-expert support for priority 1 and 2 incidents: very Important
  - broad portfolio of complimentary multi-cloud solutions and services: important

### Company Profile

The company featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.

Company Size:  
**Medium Enterprise**

Industry:  
**Insurance**
