

Telecom services company recommends OpenSesame's curation services

5/5 Stars

Please describe your experience of working with the OpenSesame's Curation team when curating courses:

“ I work with our account rep who works with the curation team. They have compiled lists for us on topics like **leadership development** and **safety**. They are also experts in putting together tracks for more **technical IT** functions.

Would you recommend OpenSesame and it's curation services?

“ The curation services **keep me from having to spend hours sorting through courses and demos**. I can send their recommendations to our leaders to review and, overall, **the feedback has been well received**.
