

5/5 Stars

Overall experience using Progress Professional Services:

“ My primary DBA and team take ownership in my system. We have a great working relationship. And, I know I can count on spot on expertise and commitment to task when I need it. One of the best decisions we made was to purchase these services.

Would you recommend Progress's Professional Services?

“ For all the reasons I have previously assigned. Very smart consultants, dedicated to task, always at the ready.
