

CLC Genomics Workbench

5/5 Stars

Please share details on your experience with it.

“ I like the easy to use pipelines and the very intuitive menus and the convenient data management/export.

Would you recommend our software to others, and if so, why?

“ Yes I would recommend it because biologists and clinician scientists often lack the time and experience in bioinformatics, Qiagen products like the CLC Workbench provides an excellent tool even when you have minimal backgrounds in bioinformatics.
