# Qlik helps solve customers' most common data challenges

Prior to implementing Qlik, which of the following were the most significant data-related impediments to your ability to make important decisions?

Challenge	Percentage
I was unable to connect mutiple and disparate data sources to see the whole story in my data	57%
The data I had was of poor quality, inaccurate, or otherwise unreliable	20%
I had challenges accessing data due to departmental silos or insufficiently broad security privileges	32%
We had too much data and no way of making sense of it	33%
I wasn't able to easily use the existing BI solutions to support my data analysis needs	46%
I didn't have a way to easily analyze data	48%
Other	8%
