

3.5/5 Stars

Please describe how the Qlik Education training programs helped you be more successful in your job role.

“ The in-person classes were important because they made us familiar with the basic concepts and steps needed to perform certain tasks. Qlik Continuous Classroom is a good place to reference. We also had a consultant who helped us with setup and explained the “why”, not just the “how to” and best practices.

Please describe what you found the most valuable about Qlik Education compared to other software training.

“ The training materials are good and we continue to reference them. There’s lots of information on the website. Having the consultant also helped us get started.
