Please describe how the Qlik Education training programs helped you be more successful in your job role.

> " The Qlik training program, particularly the in-person class, exposed me to functions and features that I did not know existed. It taught me best data modelling practices which I now apply when developing a QlikView app. This has allowed me to be a better business intelligence professional.

Please describe what you found the most valuable about Qlik Education compared to other software training.

> " I found the teacher to be one of the most valuable aspects of the education. She was very knowledgeable and able to answer all of the questions I had. She was clear and anything I didn't understand straight away, she would take the time to explain until I did.
