Please describe how the Qlik Education training programs helped you be more successful in your job role.

“ I attended in-person classes with an excellent instructor. I am now able to use Qlik efficiently, not only to use applications, but also to create my own and import my own data (e.g. Excel spreadsheets) into existing applications.

Please describe what you found the most valuable about Qlik Education compared to other software training.

“ The instructor was very knowledgeable and the program was perfectly adapted to our needs and the general knowledge of our team. (We are data scientists with a previous exposure to the same kind of software).
