

4/5 Stars

Please describe how the Qlik Education training programs helped you be more successful in your job role.

“ I participated in the virtual classes. The instructors were both top notch. While it was a lot of information to cover, most of it was relevant and helped me get up and running on my own applications. However, it was useful to learn more about direct customer service options – too readily do representatives just refer clients to the community.

Please describe what you found the most valuable about Qlik Education compared to other software training.

“ Instructor knowledge and audience participation.
