★★★★☆

4/5 Stars

Please describe how the Qlik Education training programs helped you be more successful in your job role.

> " My team and I went from not knowing much about the product to both being able to assess a request and all the possible ways to get a solution in place. We took the designer and the developer courses and we need to take additional courses sooner than later with regards to server architecture and scalability.

Please describe what you found the most valuable about Qlik Education compared to other software training.

> " What was very valuable for me was the Virtual Class dynamic. It was as if I was in an in-person training. I could hear other people's questions, experiences, challenges and the instructors were knowledgeable enough to provide more than one approach to solve an issue.
