

4.5/5 Stars

Compared to your previous solution, how has SolarWinds Backup made your job easier?

“ Yes, SolarWinds has made my job easier. Backups go through successfully every night and any problems are reported in a timely fashion. Also, troubleshooting errors is much easier through the web console, and those are rare.

Would you recommend SolarWinds n-able, and if so, why?

“ Yes, I would. It’s easy to setup and use, and backups are quick and easy to recover.
