

Case Study: Education And Workforce Development Cabinet, Commonwealth Of Kentucky

"SolarWinds DPA provides more user driven and friendly graphs to drill down to details of events."

Challenges

Purchased DPA to:

- Improve visibility into the database and the systems that support it
- Accelerate root-cause identification for performance problems
- Improve collaboration between DBAs, developers, operations and other IT teams
- Monitor overall health of our databases and be alerted when issues arise

Use Case

- Platforms:
 - Solaris/AIX/UNIX
- Database engines:
 - Oracle

Results

- Realized the following benefits as a result of using DPA:
 - Increased database performance and end user experience
 - Improved visibility into their environment and improved collaboration (less finger pointing for troubleshooting)
 - Gained time to focus on more important or strategic parts of my job
 - Has the ability to find problems that were hard or impossible to find before
