SolarWinds Database Performance Analyzer Customer Review

★★★★☆

4/5 Stars

What is the biggest benefit of using SolarWinds DPA?

> " It has been a great benefit. The ability to use preset alerts and custom alerts has dropped unintentional DBMS outages to to less than 0.5%. It gave us a fast and intuitive way to quickly analyze query bottle necks and poor performers.

How would you describe SolarWinds DPA to a colleague?

> " A top of the line DBMS monitoring and performance analysis tool.
