

Florida County Government Case Study

Introduction

This case study of a state & local government is based on an October 2020 survey of SolarWinds customers by TechValidate, a 3rd-party research service. The profiled organization asked to have their name blinded to protect their confidentiality.

Challenges

The business challenges that led the profiled organization to evaluate and ultimately select SolarWinds:

- IT challenges their agency faced prior to implementing SolarWinds products:
 - Lack of visibility into the problems leading to network performance or capacity issues
 - Not having the tools to troubleshoot network problems or outages
 - Lack of visibility into system/server health

Use Case

The key features and functionalities of SolarWinds that the surveyed organization uses:

- Regular user in the following SolarWinds product areas:
 - Network management
- Uses SolarWinds products within department / location
- Agency use cases for leveraging SolarWinds products:
 - To monitor network performance
 - To monitor system/server health
- They deploy SolarWinds to monitor 1,001-5,000 objects.

Results

The surveyed organization achieved the following results with SolarWinds:

- Results they were able to produce using SolarWinds products:
 - Improve system and application monitoring and troubleshooting
- Favorite SolarWinds products:
 - Network Performance Monitor
 - Server & Application Monitor
 - Engineer's Toolset
- Purchased their SolarWinds products because of:
 - Integration with other SolarWinds products
 - Colleague recommendation

Organization Profile

The organization featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.

Organization Size:
State & Local

Industry:
Government
