

# US Navy Case Study

## Introduction

This case study of a federal government is based on a July 2018 survey of SolarWinds Government customers by TechValidate, a 3rd-party research service. The profiled organization asked to have their name blinded to protect their confidentiality.

“These are my favorites because of their reliability and ease of use.”

## Challenges

The business challenges that led the profiled organization to evaluate and ultimately select SolarWinds Government:

- IT challenges their agency faced prior to implementing SolarWinds products:
  - Inadequate automation of compliance reporting

## Use Case

The key features and functionalities of SolarWinds Government that the surveyed organization uses:

- Regular user in the following SolarWinds product areas:
  - Network Management
  - Systems, Application, Server, and Storage Monitoring
  - Remote Support and IT Help Desk
- Uses SolarWinds products across whole agency
- Agency use cases for leveraging SolarWinds products:
  - To monitor network performance
  - To troubleshoot network problems or outages
  - To resolve configuration issues
  - To monitor system/server health
  - To monitor application and database health

## Results

The surveyed organization achieved the following results with SolarWinds Government:

- Results they were able to produce using SolarWinds products:
  - Improve configuration management
  - Improve log tracking and management
- Favorite SolarWinds products:
  - Network Performance Monitor
  - Network Configuration Manager
  - Server & Application Monitor
  - User Device Tracker

### Organization Profile

The organization featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.

Organization Size:  
**Federal**

Industry:  
**Government**
