

## Charles County Public Schools Uses SolarWinds Web Help Desk to Support 5000 Staff

5/5 Stars

How our organization uses SolarWinds Web Help Desk:

“ We have 60 techs, spread across approximately 40 buildings in a county district setup. We support 5000 staff.

Would you recommend SolarWinds Web Help Desk?

“ I would, as it was easy to set up, and fairly hands-off for the most part after setting it up. All in all, it was a painless process, and continues to be one.
