

Large Enterprise Professional Services Company

Introduction

This case study of a large enterprise professional services company is based on an August 2015 survey of SolarWinds Network Configuration Manager customers by TechValidate, a 3rd-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

“Backup configs.”

Challenges

The business challenges that led the profiled company to evaluate and ultimately select SolarWinds Network Configuration Manager:

- Problem experienced prior to using SolarWinds Network Configuration Manager (NCM):
 - Needed a better way to backup and restore configuration files

Use Case

The key feature and functionality of SolarWinds Network Configuration Manager that the surveyed company uses:

- Company manages up to 2500 devices.

Results

The surveyed company achieved the following results with SolarWinds Network Configuration Manager:

- Primary reasons for using NCM:
 - Configuration monitoring to know when and how configurations have changed
 - Configuration auditing to more easily and quickly perform policy compliance audits
 - Configuration backup and restore to provide operational continuity
 - Security scanning to identify potential vulnerabilities in network devices and configurations
- Primary benefits from using NCM:
 - Saves time making configuration changes
 - Makes fewer errors when making standardized configuration changes
 - Monitors configuration changes and fix configuration problems faster
 - Spends less time and effort demonstrating policy compliance
 - Makes the network devices (and the network) more secure
- Is up to 50% faster at detecting and or fixing network configuration problems since using NCM.
- Agrees that they achieve far superior security and network reliability when they use network automation alongside their network monitoring solution.

Company Profile

The company featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.
