

Large Enterprise Health Care Company

Introduction

This case study of a large enterprise health care company is based on an August 2015 survey of SolarWinds Network Configuration Manager customers by TechValidate, a 3rd-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

“It shows us the differences in configuration changes made at different points in time.”

Challenges

The business challenges that led the profiled company to evaluate and ultimately select SolarWinds Network Configuration Manager:

- Problems experienced prior to using SolarWinds Network Configuration Manager (NCM):
 - Needed to know when configuration changes were made and/or prevent unapproved changes
 - Wanted a faster and easier way to do compliance audits
 - Needed a better way to backup and restore configuration files

Use Case

The key feature and functionality of SolarWinds Network Configuration Manager that the surveyed company uses:

- Company manages 2500 devices or more.

Results

The surveyed company achieved the following results with SolarWinds Network Configuration Manager:

- Primary reasons for using NCM:
 - Configuration monitoring to know when and how configurations have changed
 - Configuration auditing to more easily and quickly perform policy compliance audits
 - Configuration backup and restore to provide operational continuity
- Primary benefits from using NCM:
 - Monitors configuration changes and fix configuration problems faster
 - Makes the network devices (and the network) more secure
- Saves up to 25 hours each month managing network configurations by using NCM.
- Is up to 50% more efficient at managing and implementing reliable network changes since deploying NCM.
- Is up to 50% faster at detecting and or fixing network configuration problems since using NCM.
- Agrees that they achieve far superior security and network reliability when they use network automation alongside their network monitoring solution.

Company Profile

The company featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.

Company Size:
Large Enterprise

Industry:
Health Care
