SOLARWINDS NETFLOW TRAFFIC ANALYZER CASE STUDY

Kryterion

Introduction

This case study of Kryterion is based on a December 2017 survey of SolarWinds NetFlow Traffic Analyzer customers by TechValidate, a 3rd-party research service.

> "My favorite feature of NetFlow Traffic Analyzer is seeing package, network, and point traffic usage."

Challenges

The business challenges that led the profiled company to evaluate and ultimately select SolarWinds NetFlow Traffic Analyzer:

- Troubleshooting application performance issues
- Viewing traffic patterns to optimize policies
- General network troubleshooting
- Gaining access to historical traffic data

Use Case

The surveyed company uses the following SolarWinds network management products:

- Network Performance Monitor (NPM)
- NetFlow Traffic Analyzer (NTA)

Results

The surveyed company achieved the following results with SolarWinds NetFlow Traffic Analyzer:

- Gets to the root cause of a bandwidth issue ten times faster since using NetFlow Traffic Analyzer versus using no flow analysis tool.

Company Profile

Company:
Kryterion

Company Size:
Medium Enterprise

Industry:
Computer Software
