

Independent Farmers Bank uses Kiwi Syslog Server in Conjunction with SolarWinds LEM

Gerald Scott, an IT Manager / Information Security Officer at Independent Farmers Bank, is very likely to recommend SolarWinds Kiwi Syslog Server for the following reason:

“ Kiwi Syslog Server has worked well for us and does exactly what I need it to do: collate logs by machine and date into an easy to read format. In fact, I often use the Kiwi viewer in conjunction with our SolarWinds LEM when I know what data and info to look for, but the inDepth is taking too much time to search and collate data.
