

Log & Event Manager Helps City Of Cincinnati Protect Privileged Accounts

“LEM is an invaluable tool for monitoring our network and servers. Other departments within the city are asking me for recommendations and I steer them towards Log & Event Manager and the SolarWinds suite of products.”

Challenges

City of Cincinnati considers **Data security** as the most critical security area to their organization.

Use Case

- The three most critical features that will help City of Cincinnati detect and respond to threats are:
 - Centralized real-time event detection, correlation & notifications
 - File integrity monitoring
 - Single pane of glass across performance monitoring and security tools

Results

- Log & Event Manager helps City of Cincinnati detect **51 – 100** security incidents, every month.
- Their favorite feature in Log & Event Manager is **in-depth search and log analysis**.

City of Cincinnati now feels **more prepared** to deal with *security and compliance* issues with SolarWinds **Log & Event Manager**.
